Product

Electricity is the product of a mix of energy sources delivered over a system of wires. You will not have electricity from a specific generation facility delivered to Your service address. The energy your home uses will be paired with renewable energy sources through the purchase of Renewable Energy Certificates ("RECs"). For every unit of renewable energy generated, an equivalent amount of RECs is produced. By purchasing and pairing RECs with your electricity services you are using and receiving the benefits of renewable electricity. Increased demand for, and generation of, renewable electricity can help reduce conventional electricity generation from fossil fuels in the region where the renewable electricity generator is located. It may also have other environmental benefits such as little or no regional air pollution or carbon dioxide. Switching will not impact Your electric service reliability. This product is 100% renewable with 99% wind and 1% solar RECs; approximately 11% are Illinois wind RECs.

Pricing

Your supply charges will be calculated using the price per kWh multiplied by the kilowatt hours used, as reported to CCE by Your utility. ComEd will continue to charge, and You will be responsible for paying, all charges imposed by ComEd for delivery and other ComEd assessed charges. You must also pay all applicable federal, state, and local taxes and charges. Your next applicable variable rate is available at customers.cleanchoiceenergy.com and a one-year price history is available at <https://cleanchoiceenergy.com/historicrates/IL/> or by calling 800-885-2273. Your price is based on a variety of factors, including the cost to purchase RECs, applicable state and local taxes, transmission charges, the cost of energy, and other market factors.

Billing and Payment

You will receive a single bill from ComEd containing separate charges from both ComEd and CCE.

Cancellation and Termination of Service

You may cancel this Agreement at any time without an early termination fee by contacting Us. You will be responsible for all CCE charges incurred up to the date of cancellation by ComEd, which may take one to two billing cycles.

Renewal

This contract automatically renews on a month to month basis until terminated by one of the parties.
